Row #	Application #	Score	Applicant	County	Project Title	Project Abstract	Total Grant Request	Total Grant Awarded
1	C11-58	82.5	SE SWCD Technical Support Joint Powers Board	Multi-County	Nutrient Management in the Lower Mississippi River Watershed	Two nutrient management specialists will assist landowners in an eleven county area with writing nutrient management plans and implementing BMP's for manure and fertilizer use.	$161,616 (RTA)	$161,616 (RTA)
2	C11-18	80.5	Ramsey Conservation District	Ramsey	Protecting Ramsey County's Drinking Water Supply Management Areas	This project will target the sealing of abandoned and unused wells within groundwater recharge zones of municipal water supply wells.	$188,947 (CWA)	$128,625 (CWA)
3	C11-81	79.2	Greater Blue Earth River Basin Alliance	Multi-County	Blue Earth River Basin Clean Water Fund Positions	This project will help fund and support 4 positions assisting landowners and local units of government within the Greater Blue Earth River basin. The positions include: nutrient management specialist, conservation agronomist, urban outreach specialist, and a watershed technician for the Cobb River sub-watershed.	$242,075 (RTA)	$242,075 (RTA)
4	C11-129	78.8	Red Lake Watershed District	Red Lake	Grade Stabilization for Reduction of Sedimentation in the Thief River	This project will result in the installation of six grade stabilization structures, side water inlets, and stream bank stabilization in the lower 2.5 miles of CD20.	$187,974 (RR/SL)	$187,974 (RR/SL)
5	C11-43	78.6	Lincoln SWCD	Lincoln	Verdi Wellhead Protection Area Project - 2011	This project will reduce nitrate levels in the Verdi well field drinking water supply by providing landowners educational information and incentives by developing nutrient management plans, utilizing variable rate technology, utilizing nitrogen stabilizers/nitrogen efficiency products, and installing targeted filter strips.	$184,211 (CWA)	$184,211 (CWA)
6	C11-59	74.9	Fillmore SWCD	Fillmore	Grazing Management Initiative for the Root, Whitewater and Adjacent Watersheds	A Grazing Management Specialist in the Root and Whitewater watersheds will provide technical assistance for developing prescribed grazing plans and implementing grazing practices through EQIP and other programs.	$126,316 (RTA)	$126,316 (RTA)
7	C11-20	74.6	Rock County SWCD/Land Mgt	Rock	Rock River Turbidity and Fecal Coliform Reduction	This project will stabilize 1600' of eroding stream bank and also reduce storm water runoff with the installation of 3 rain gardens within the city of Luverne.	$46,598 (CWA)	$46,598 (CWA)
8	C11-156	74.5	Red Lake County SWCD	Red Lake	Accelerated Erosion Control Projects in the Red Lake River Watershed	This project will reduce sediment from high priority sites by installing two grassed waterways, two grade stabilization structures and stabilizing, a stream bank.	$102,895 (CWA)	$102,895 (CWA)
9	C11-50	74.5	Benton SWCD	Benton	Little Rock Impaired Waters Kickoff	This project will accelerate the adoption of high priority BMP's in the Little Rock Lake and Creek watersheds. Efforts will include a new watershed wide irrigation water management program that is intended to be funded by irrigators by the end of the grant program.	$103,745 (RTA/SL)	$84,211 (RTA)
10	C11-91	74.1	Nobles SWCD	Nobles	Langseth Family (Lake Ocheda) Shoreline Improvement Project	This project will improve a 1600 foot lake shoreline resulting in improved water quality, fishery and upland habitat, historical preservation and improved drinking water supplies in Lake Ocheda.	$162,105 (SL)	$162,105 (SL)
11	C11-22	74.0	Wilkin Soil and Water Conservation District	Wilkin	Lower Otter Tail River Sediment Reduction Project Phase IV	This project will install water control structures, side-inlets, and buffer strips into county ditch systems. Additionally, these practices will provide significant flood control benefits by storing water on the land.	$196,842 (CWA)	$196,842 (CWA)
12	C11-32	73.7	Carver County	Carver	Carver County Fecal Coliform Implementation IV	Carver County has been targeting sub-watersheds of Carver, Bevens, and Silver Creeks and using direct marketing to promote BMP's, incentive programs, and stepped up enforcement of ordinances. This application will continue funding for staff and programs that are currently set to expire in June, 2011	$178,571 (RTA)	$178,571 (RTA)
13	C11-67	72.6	Winona County	Winona	Winona County Well Sealing Cost share Project	This project will be used for sealing wells in a targeted area in effort to prevent groundwater contamination.	$30,000 (CWA)	$30,000 (CWA)

RTA =Restoration Technical Assistance; RR=Runoff Reduction; CWA=Clean Water Assistance; SL = Shoreland

Row #	Application #	Score	Applicant	County	Project Title	Project Abstract	Total Grant Request	Total Grant Awarded
14	C11-101	72.6	Olmsted Soil and Water Conservation District	Olmsted	Protecting Groundwater by Assisting Oronoco Residents in Well Sealing	The City of Oronoco is nearing completion of its municipal water system. This project will provide cost-share to residents connecting to the Oronoco Water System that have unused or abandoned wells that need to be sealed to protect groundwater.	$128,866 (CWA)	$114,446 (CWA)
15	C11-145	72.4	Cedar River Watershed District	Mower	Dobbins Creek Watershed Restoration	This project will implement activities in the 2009 Ag Watershed Restoration study funded by BWSR. Practices to be installed include: a wetland restoration and stream stabilizations that will trap sediments and stabilize stream banks in the Dobbins Creek Watershed.	$163,596 (RR/SL)	$163,596 (RR)
16	C11-124	72.0	Bassett Creek Watershed Management Commission	Hennepin	Wirth Lake Outlet Modification Project	This project is the only project listed in the Wirth Lake TMDL implementation plan. By preventing backflow from Bassett Creek, the Wirth Lake outlet modification will reduce the TP load to the lake.	$75,000 (CWA)	$75,000 (RR)
17	C11-78	71.4	Pomme De Terre River Association	Grant	Pomme de Terre River Watershed Best Management Practice (BMP) Initiative	This is a five SWCD/County cooperative project to accelerate the implementation of BMPs within the Pomme de Terre River Watershed. Our goal is to reduce sedimentation by 26,601 tons/yr and phosphorus loading by 26,621 lb/yr. Fecal coliform contamination will also be reduced in the Pomme de Terre River.	$502,684 (CWA)	$257,610 (RR/SL/RTA)
18	C11-38	71.3	East Otter Tail Soil and Water Conservation District	Otter Tail	East Otter Tail Groundwater Protection Project	This project will provide incentives to encourage irrigation producers to convert high or medium pressure irrigation systems to low pressure systems, which will prevent potential nitrate-nitrogen and other potential groundwater contamination through leaching due to over irrigation	$174,742 (CWA)	$87,371 (CWA)
19	C11-15	70.9	Sauk River Watershed District	Stearns	Sauk River Stormwater Runoff Reduction and Riparian Restoration Project	This project will install 29 urban stormwater/shore land projects on private property and 7 on city or school property.	$435,289 (RR/SL)	$435,289 (RR/SL)
20	C11-159	70.7	Pennington SWCD	Pennington	Judicial Ditch #30 & #18 Buffer Initiative	This project will provide incentive payments for landowners to install 50' wide buffer strips and grade stabilization structures from field ditches along 24 mile ditch system.	$187,687 (CWA)	$93,844 (CWA)
21	C11-96	70.4	South St. Louis Soil & Water Conservation District	St. Louis	Miller Creek Urban Trout Stream Restoration Projects	This project will restore 3,400 ft. of Miller Creek, a designated trout stream in Duluth.	$154,893 (CWA)	$154,893 (CWA)
22	C11-87	69.9	Two Rivers Watershed District	Kittson	Lake Bronson Watershed Runoff Reduction Project	The project will reduce runoff and decrease movement of sediment, nutrients and bacteria by targeting, prioritizing and installing vegetative practices within Lake Bronson and upland subwatersheds. Emphasis will be placed on State Ditch 90, 91 and 95 which are subwatersheds within the Two Rivers Watershed District (TRWD).	$200,000 (CWA)	$100,000 (RR)
23	C11-85	69.1	Brown's Creek Watershed District	Washington	Brown's Creek Thermal Load Reduction	Brown's Creek Watershed District and Oak Glen Golf Course will partner to achieve significant thermal and sediment reductions in biologically impaired Brown's Creek by installing 2.25 acres of buffer and restoring 1300 feet of stream bank.	$210,000 (SL)	$210,000 (SL)
24	C11-111	69.1	Lake of the Woods Soil and Water Conservation District	Lake of the Woods	Bostic and Zippel Watershed Stabilization and Water Retention Project	This project will reduce erosion, sedimentation, and nutrient transport within the Bostic and Zippel Watersheds by installing grade stabilization, side water inlets, and gully stabilization projects and developing a water retention plan.	$52,105 (CWA)	$52,105 (CWA)

RTA =Restoration Technical Assistance; RR=Runoff Reduction; CWA=Clean Water Assistance; SL = Shoreland

Row #	Application #	Score	Applicant	County	Project Title	Project Abstract	Total Grant Request	Total Grant Awarded
25	C11-30	68.7	Todd Soil & Water Conservation District	Todd	Swan River Headwaters Clean Water Fund	This project targets nineteen landowners within the Swan River Watershed . The practices installed will control pollutants and sediment from entering surface waters.	$203,158 (SL)	$203,158(CWA)
26	C11-151	68.7	City of St. Louis Park	Hennepin	Minnehaha Creek Stream Meander - St. Louis Park	This project aims to re-meander a section of Minnehaha Creek through a highly urbanized area of St. Louis Park. The project will include increased riparian buffers, stream bank stabilization, vegetative restoration, and construction of water quality treatment practices.	$300,000 (SL)	$300,000 (SL)
27	C11-05	68.6	Rice Creek Watershed District	Anoka	Moore Lake Water Quality Enhancements	This project will construct three rain gardens to infiltrate stormwater runoff near the Fridley Middle School. The BMP's will improve water quality of West Moore Lake and provide opportunity to educate students and the public in responsible stormwater management.	$136,336 (RR)	
28	C11-102	68.1	Elk River Watershed Association	Sherburne	Elk River Watershed Pollution Loading Reduction Project	Elk River Watershed Association (ERWSA) has commitments from cooperators to restore shore lands, treat stormwater, manage manure and create a wetland.	$149,104 (SL)	$149,104 (CWA)
29	C11-103	66.7	Isanti County Zoning Department	Isanti	Isanti County Native Grass/ Stormwater BMP Demonstration Project	The project will reduce runoff and protect groundwater by establishing native plantings on at least 150 acres of private lands in priority areas and establish stormwater reduction and other BMP projects in county parks.	$145,484 (CWA)	$65,924 (CWA)
30	C11-03	66.3	Red Lake County SWCD	Red Lake	Accelerated Streambank & Shoreland Projects in the Clearwater River Watershed.	This project will construct two streambank stabilizations identified in an Erosion Site Inventory conducted by Red Lake County SWCD.	$103,789 (CWA)	$48,421 (SL)
31	C11-126	65.5	Prior Lake-Spring Lake Watershed District	Scott	Spring and Prior Lake Upper Watershed Stormwater Runoff Volume Reduction	This project will store an additional 186 ac-ft of stormwater per year in the upper watershed of Spring and Prior Lake through wetland reestablishment and restoring natural infiltration capacity of several topographic depressions.	$195,600 (RR)	$195,600 (RR)
32	C11 -157	65.4	Pennington SWCD	Pennington	The Ralph Engelstad Arena Raingarden Project	The Ralph Engelstad Arena covers about two city blocks and is covered by 85-90% impervious surface. This project will utilizing multiple raingardens to store water onsite and control stormwater runoff.	$88,681 (CWA)	$88,681 (CWA)
33	C11-93	65.0	Aitkin County SWCD	Aitkin	Cedar and Farm Island Lakes, Reversing the Downward Trend	Cedar and Farm Island are large recreational lakes located in the Aitkin/Brainerd Lakes area. Both lakes are showing significant downward trends in water clarity. This project seeks to reverse that trend before these lakes degrade further and become impaired.	$108,011 (CWA/SL)	$108,011 (CWA)
34	C11-69	64.7	Greater Blue Earth River Basin Alliance	Multi-County	The Greater Blue Earth River Basin Alliance Agricultural Shoreland Initiative	This project will identify DNR protected shoreland in GBERBA counties without a 50' buffer. Implementation of buffers and landowner Education will also be undertaken.	$267,368 (CWA)	$100,000 (CW/SL)
35	C11-83	64.7	Sauk River Watershed District	Stearns	Technical Assistance for Sauk River Watershed - Mississippi River Basin Initiative	This project will provide technical assistance for the Upper Mississippi River Basin Initiative (MRBI) project in the Sauk River Watershed.	$231,579 (CWA)	$168,421 (RTA)
36	C11-71	64.5	Buffalo-Red River Watershed District	Clay	Wolverton Creek Restoration and Sediment Reduction Project	This project aims to reduce erosion and sedimentation in Wolverton Creek by installing side inlets, bufferstrips, conservation tillage, and channel restoration design.	$306,837 (RTA)	$253,229 (RR)
37	C11-07	64.0	Chisago Soil and Water Conservation District	Chisago	Chain of Lakes Stormwater Retrofit Assessment Best Management Practices	The Chisago Lakes Chain of Lakes Stormwater Retrofit Assessment has assessed 54 small watersheds for the optimal locations for best management practices. A long list of BMPs has been identified and this project will take the next step is to design and install priority projects.	$230,526 (CWA)	$230,526 (CWA)

RTA =Restoration Technical Assistance; RR=Runoff Reduction; CWA=Clean Water Assistance; SL = Shoreland

Row #	Application #	Score	Applicant	County	Project Title	Project Abstract	Total Grant Request	Total Grant Awarded
38	C11-149	63.8	Prior Lake-Spring Lake Watershed District	Scott	Upper Prior Lake – Targeted Stormwater BMP Retrofits & Enhancements	This project will enhance 11 existing water quality ponds to include iron-sand enhanced filtration, hydro period modification and increased storage. In addition, 39 retrofit bioretention raingardens targeted in untreated subwatersheds and a 210 SF permeable pavement area will be constructed.	$189,511 (CWA)	$189,511 (RR)
39	C11-60	63.4	Buffalo - Red River Watershed District	Clay	Upper South Branch BMP Strategic Implementation Plan	LiDAR terrain analysis will be used to determine BMP locations to reduce sediment loads and runoff contamination. BMPs will be implemented at these locations.	$135,364 (RTA)	$135,364 (RTA/RR)
40	C11-42	62.9	Scott Watershed Management Organization	Scott	Sand Creek & Prior Lake/Spring Lake Watersheds Wetland Restoration Project	This proposal is to fund Early Adopter payments to promote participation in a regional watershed project having the goal of improving water quality and expanding wildlife habitat by permanently restoring and enhancing up to 500 acres of wetlands in the Sand Creek and Prior/Spring Lake Watersheds.	$80,000 (RR)	$80,000 (RR)
41	C11-128	62.6	West Otter Tail SWCD	Otter Tail	Otter Tail and Pelican River BMP Implementation Project Plan	This project will help promote and design BMPs that are priorities in the Lower Otter Tail Watershed TMDL implementation plan.	$65,684 (RTA)	$65,684 (RTA)
42	C11-107	62.5	Bois de Sioux Watershed District	Traverse	Mustinka River Turbidity TMDL Implementation Project	This project will work to complete goals outlined within the Mustinka River TMDL Implementation Plan. Implementing BMPs will annually reduce a total of 31,250 tons of sediment and 31,250 pounds of phosphorus loading into the Mustinka River.	$260,211 (RR)	$130,106 (RR)
43	C11-148	62.0	Pennington SWCD	Pennington	Halvorson Streambank Restoration	Stabilize 300' of the Thief River streambank to protect a home plus improve water quality in an impaired water and a city drinking water supply.	$34,375 (SL)	$34,375 (SL)
44	C11-53	61.8	Carlton SWCD	Carlton	Elim Creek Restoration Through Aging Sediment Retention Structure Removal	This project will remove three, 30 year old sediment control structures and restore 1/3 mile of Elim Creek. The project will correct 304 tons of soil loss and remove the threat of 956 tons of sediment transport to the North Fork of the Nemadji River that is impaired for turbidity.	$119,522 (CWA)	$119,522 (CWA)
45	C11-104	61.6	Blue Earth County	Blue Earth	Blue Earth County Shoreland Buffer Initiative	Restoration technical assistance will be targeted in shoreland areas within impaired watersheds to establishment of riparian buffers and other practices.	$136,842 (RTA)	$136,842 (RTA)
46	C11-09	60.8	Chisago Soil and Water Conservation District	Chisago	St. Croix River escarpment gully stabilization inventory and outreach program	This project will inventory the active gully erosion sites along the St. Croix River escarpment from the Wild River State Park entrance south to the County line. This inventory will be utilized to contact landowners and begin the process of developing a plan to implement BMP's.	$31,579 (RTA)	$31,579 (RTA)
47	C11-90	60.8	Becker Soil & Water Conservation District	Becker	Campbell Creek Phosphorus and Sedimentation Reduction Project	Continue the successful efforts of erosion and sediment reduction in the Campbell Creek/Floyd chain of lakes area and the Buffalo River through the installation of sediment and erosion control basins and native buffers.	$57,653 (CWA)	$57,653 (SL)
48	C11-63	60.7	Ramsey Washington Metro Watershed District	Ramsey	North Saint Paul Living Street Project	The proposed 2-block street reconstruction project addresses aspects of the Kohlman Lake TMDL Implementation Plan through construction of infiltration rainwater gardens, urban trees and narrowed streets in a distributed fashion in a residential setting, achieving runoff volume reduction and pollutant reduction.	$566,000 (RR)	$566,000 (RR)

RTA =Restoration Technical Assistance; RR=Runoff Reduction; CWA=Clean Water Assistance; SL = Shoreland

Row #	Application #	Score	Applicant	County	Project Title	Project Abstract	Total Grant Request	Total Grant Awarded
49	C11-88	60.7	Middle St. Croix Watershed Management Organization	Washington	Lily Lake Stormwater Retrofit Project	This project will implement priority stormwater treatment projects identified in the Lily Lake Stormwater Retrofit Assessment Report. Implementation will reduce phosphorous inputs to Lily Lake by 9.5 lbs/yr, reduce TSS to Lily Lake by 8,566 lbs/yr and provide a volume reduction of 7.7 acre-feet/yr	$43,400 (RR)	$43,400 (RR)
50	C11-144	60.5	Crow Wing Soils and Water Conservation District	Crow Wing	Catch, Clean, Circulate, Stormwater Management for Gull and Trout Lakesheds	This project will implement projects that will intercept, infiltrate, and treat runoff which will reduce phosphorus and sediment inputs into Gull and Trout Lakes.	$136,300 (CWA)	$136,300 (CWA)
51	C11-04	60.5	East Polk Soil and Water Conservation District	Polk	Sand Hill River Watershed Accelerated Erosion Area BMP's	This project would assist in the installation of 29 sediment basins in the Upper Sand Hill River Watershed.	$281,053 (CWA)	$281,053 (CWA)
52	C11-33	60.3	Carver County WMO	Carver	Reitz Lake Restoration Project	Reitz Lake's water quality will improve by installing a water retention structure, enhancing/restoring a wetland and installing several raingardens/shoreland restorations.	$127,551 (RR/SL)	$127,551 (RR/SL)
53	C11-77	60.0	City of Orono	Hennepin	Stubbs Bay Ravine Stabilization	This project will repair an eroding ravine that drains into Stubbs Bay on Lake Minnetonka. The proposed project is to regrade the ravine, install grade breaks, and stabilize it with native vegetation and shrubs.	$183,684 (SL)	$183,684 (SL)
54	C11-105	59.9	Scott Watershed Management Organization	Scott	Cedar & O'Dowd Lake Shoreline Improvements	This project will reduce phosphorus input into Cedar and O'Dowd Lakes, create habitat to improve water quality by stabilizing shoreland in the Cedar Lake Farms Regional Park, and by restoring shoreland along O'Dowd Lake.	$30,000 (SL)	$15,000 (SL)
55	C11-146	59.7	Washington Conservation District	Washington	Powers Lake Priority Subwatershed Retrofit Project	This project will implement 20 priority stormwater treatment projects within two target catchments identified in the Powers Lake Subwatershed Assessment.	$37,632 (CWA)	$37,632 (CWA)
56	C11-89	59.5	Buffalo-Red River Watershed District	Becker	Continuation of Hay Creek/Stinking Lake Sediment Reduction Project	Continue the successful efforts of erosion and sediment reduction in the Hay Creek/Stinking Lake Watershed through the installation 19 additional sediment and erosion control basins.	$105,408 (RR)	$105,408 (RR)
57	C11-06	59.5	Chisago Soil and Water Conservation District	Chisago	Implementation of Water-Smart Best Management Practices at Schools and Libraries	This project will implement BMPs to treat stormwater runoff at public school and library facilities in Chisago County.	$37,895 (CWA)	$37,895 (CWA)
58	C11-48	59.4	Murray County	Murray	Jackson-Cottonwood-Murray West Fork Des Moines River BMP Project	Construct sediment reduction projects in the Des Moines River watershed that include a structure enhancement in Cottonwood County, a bio swale and sediment control structure in Jackson County, and a retention structure in Murray County.	$83,064 (CWA)	$83,064 (CWA)
59	C11-37	59.2	Red Lake Watershed District	Red Lake	Grand Marais Creek Cut Channel Stabilization Project	Stabilize the outlet of Grand Marais Creek to reduce the sediment carried to the Red River of the North by up to 700 tons per year.	$662,000 (RR/SL)	$662,000 (RR/SL)
60	C11-65	59.1	Washington Conservation District	Washington	Armstrong Lake Restoration - Oakdale Library Water Quality Retrofit	Oakdale Library Water Quality Retrofit project will install a large parking lot bioretention facility and multiple rain gardens to reduce phosphorus loading and improve water quality in Armstrong Lake and Wilmes Lake.	$48,270 (CWA)	$48,270 (CWA) (RR)
61	C11-11	58.5	Chisago Soil and Water Conservation District	Chisago	Stabilization of erosion concerns adjacent to public roads and rivers	This project will implement numerous BMPs to correct multiple erosion concerns occurring adjacent to two public roads (Kost Dam Trail and County Road 81), which are in close proximity to the Sunrise River.	$89,474 (CWA)	$89,474 (CWA)
62	C11-08	58.4	Chisago Soil and Water Conservation District	Chisago	Pleasant Hill Park Stormwater Retrofit	The City of Lindstrom has identified this subwatershed as a high priority subwatershed for potential stormwater best management practices due to the high volume of untreated stormwater that discharges directly into South Lindstrom Lake. Concept plans have been completed that include a series of sediment forebays and filtration basins.	$263,158 (CWA)	$ -

63	C11-52	58.0	Cass Soil and Water Conservation District	Cass	Cass County Water Quality Enhancement and Shoreline Protection Project	This project consists of an erosion/sediment control project and two shoreline restoration and protection projects that will enhance and protect surface water quality in Cass County.	$193,553 (CWA/SL)	$77,862(CWA/SL)
64	C11-135	57.8	Le Sueur County	Le Sueur	Jefferson German Lakes Septic Inventory (JGLSI)	This project will install 46 shoreland projects that improve water quality on lakes in Le Sueur County.	$171,605 (CWA)	$ -
65	C11-40	57.4	East Otter Tail Soil and Water Conservation District	Otter Tail	Engaging and Equipping Lake Based Communities for Exceptional Resource Protection	The installation of community identified water quality projects supported by lake specific citizen engagement efforts to leverage and foster proactive lake protection planning and implementation activities.	$100,263 (SL)	
66		57.2	Lake of the Woods SWCD	Lake of the Woods	Rainy River Shoreline Stabilization Program	This project will install BMPs to reduce lakeshore and streambank erosion through project implementation and education.	$91,579 (CWA)	$ -
67	C11-56	57.1	Minnesota River Board JPB	37 county JPB	Community Clean-Ups for Water Quality	This project will engage citizens, businesses and organizations to prevent over 20,040 pounds of nitrogen and phosphorus from being transported in stormwater runoff and contaminating the associated water bodies through training, coordination and implementation of 120 organic waste Community Clean-Ups.	$300,000 (CWA)	$ -
68	C11-75	56.8	Lake SWCD	Lake	Stewart River Watershed Protection Project	This project will restore four severely eroding streambank sites along a 1.5 mile reach of the Stewart River.	$87,921 (SL)	$ -
69	C11-113	56.5	Grass Lake WMO	Ramsey	Improving Lake Owasso's Water Quality through Bioinfiltration in two Communities	This project will install several bioinfiltration systems within two drainage areas that ultimately feed into Lake Owasso.	$211,579 (RR)	$ -
70	C11-130	56.3	Washington SWCD	Washington	Lake Edith Shoreland Improvement Project	This shoreland project will improve water quality by stabilizing a large section of steep, highly erodible shoreline along Lake Edith, directly tributary to Valley Creek, a designated trout stream.	$73,684 (SL)	$ -
71	C11-34	56.2	Black Dog WMO	Dakota	Whitney Pond Water Quality Improvement Project	The project involves constructing a 1.9 acre detention pond with an in-pipe grit chamber and upland native plant buffer, 25' wide, to reduce the annual total phosphorus load to Keller Lake by 53 lbs.	$475,000 (RR)	$ -
72	C11-61	56.1	Buffalo Red River WD		Buffalo River Restoration and Floodplain Enhancement, Hawley, MN	This project will restore 5,600 feet of Buffalo River channel, add 34 acres of flood plain, and stabilize the river bank and rebuild dike protecting 56 homes.	$1,037,500 (CWA/RR/SL)	$ -
73	C11-12	56.0	Chisago SWCD	Chisago	Chisago County Urban and Lakeshore Best Management Practices Implementation Project	This project will install urban BMPs, including rain gardens and lakeshore restorations, that are ready for implementation within Chisago County.	$86,737 (CWA/SL)	$ -
74	C11-131	56.0	Bassett Creek Watershed Management Commission	Hennepin	Bassett Creek Reach 1, Subreaches 1 and 3 Restoration Project	This project will stabilize the stream and the stream banks at 15 locations along Bassett Creek. The project will stabilize a total of 900 feet of stream bank over a total reach length of approximately 6,300 feet.	$174,000 (RR)	$ -
75	C11-62	55.9	Coon Creek WD	Anoka	Clean Water at Schools - reducing pollution, increasing stewardship	This project will install BMPs to reduce degradation of Coon Creek while promoting stewardship for clean water at built-out school facilities. The pilot site is at the adjacent Coon Rapids Middle and High School campuses.	$224,576 (RR)	$ -
76	C11-132	55.4	Blue Earth SWCD	Blue Earth	Blue Earth County Ravine and Stream Channel Stabilization Design Assistance	that will significantly reduce gully, ravine, stream bank and bluff erosion and sedimentation in the Blue Earth, Le Sueur, Watonwan	$57,895 (RTA)	$57,895 (RTA)
77	C11-35	55.3	Mille Lacs SWCD	Mille Lacs	Mille Lacs SWCD Rum River Watershed Shoreline Restorations	This project will restore at least two separate areas of approximately 100 linear feet of badly eroded shoreline in Mille	$52,293 (RR/SL)	$ -
78	C11-80	54.4	Middle Fork Crow River WD	Kandiyohi	Green Lake Stormwater Improvement Project	This project is designed to reduce nutrients and sediment delivered to the lake via the implementation of stormwater BMPs.	$219,180 (RR/SL)	$ -

Row #	Application #	Score	Applicant	County	Project Title	Project Abstract	Total Grant Request	Total Grant Awarded
79	C11-137	54.0	Washington Conservation District	Washington	Washington County Green Churches Stormwater Retrofit Initiative	This project will install BMP's that include raingardens, pervious pavements, and rainwater harvesting methods to capture and improve water quality to downstream water resources.	$67,750 (CWA)	$ -
80	C11-66	53.9	Washington Conservation District	Washington	Highway 61 Commercial Stormwater Retrofit Flooding and Water Quality Improvement	This project will install multiple stormwater management practices on commercial site to reduce flooding and improve downstream water quality	$130,870 (CWA)	$ -
81	C11-47	53.5	Kanabec SWCD	Kanabec	Shoreland native vegetative buffers and rain gardens infiltration project	The project will focus on providing technical assistance to lake associations, landowers and local government units within the Snake River Watershed to reduce runoff and nutrient loading through the implementation of BMP's such as rain gardens and shoreland buffers.	$31,390 (SL)	$ -
82	C11-45	53.4	Morrison SWCD	Morrison	Sullivan/Platte Lakes Initiative and Platte/Skunk/Spunk Rivers Remedial Initiative	The Platte, Skunk, and Spunk creeks all are impaired tributaries to the Crane Meadows Wildlife Preserve. Affected by agriculture and erosion impacts, the goal would be to reduce the impacts in the headwaters prior to entering the wildlife refuge.	$159,579 (CWA)	$ -
83	C11-49	52.7	Carlton SWCD	Carlton	Shoreline Re-vegetation in Carlton County on Priority Lakes	This proposal will fund shoreline buffers establishment on 332 linear feet (16,975 sq.ft.) of lake shore on 3 priority lakes (4 sites). A county wide waters conference for lakeshore owners will highlight these buffers.	$71,697 (SL)	$ -
84	C11-86	51.6	Carver County	Carver	East Creek tributary urban stream stabilization	Use of proven stream restoration techniques and volume reduction BMPs will restore the tributary and reduce the amount of sediment and nutrients being transported to East Creek.	$124,490 (RR)	$ -
85	C11-10	50.8	Chisago SWCD	Chisago	Rock Creek Streambank Erosion Stabilization Project	This project is proposed to stabilize a large erosion concern located on the bank of the Rock Creek, approximately 3/4 of a mile from the St. Croix River. The goal of the project is to stabilize 225 feet (horizontal) by 30 feet (vertical) of severely eroded shoreline along the Creek.	$31,579 (SL)	$ -
86	C11-127	50.8	Bassett Creek Watershed Management Commission	Hennepin	North Branch Bassett Creek Restoration Project	This project will stabilize the stream and the stream banks at 20 locations within the North Branch of Bassett Creek.	$250,000 (RR)	$ -
87	C11-23	50.7	South Washington WD	Washington	C-P6 Pond Improvements	The installation of improvements to pond C-P6, which include the excavation of three pre-treatment basins plus a linear infiltration swale.	$339,039 (RR)	$ -
88	C11-01	50.6	Upper Minnesota River WD	Big Stone	Minnesota River Headwaters and Whetstone River Restoration Project	The project will be a cooperative effort to restore the historic Whetstone River channel between Big Stone Lake and Minnesota River.	$61,684 (RTA)	$ -
89	C11-24	50.4	South Washington WD	Washington	ED-P5 Pond Improvements	The proposed project will improve the quality of storm water runoff to downstream wetlands and the Mississippi River by retrofitting an existing dry stormwater basin with wet ponding cells and an infiltration cell.	$640,000 (RR)	$ -
90	C11-54	50.2	Steele SWCD	Steele	Straight River/County Road #3 Sediment Reduction Project	The proposed erosion control structure addresses an active gully that extends from the Straight River up to Steele County Road #3 (a distance of 200'). The proposed erosion control structure will remove 9.6 tons and over 9# of phosphorus per year from the system	$30,000 (CWA)	$ -
91	C11-46	46.1	Upper Minnesota River WD	Big Stone	Central Park Storm Water Erosion Control Project	This project represents the second phase of a three-phase project to reduce the sediment and nutrient loading from the Central Park storm water system to Big Stone Lake.	$80,000 (CWA)	$ -

RTA =Restoration Technical Assistance; RR=Runoff Reduction; CWA=Clean Water Assistance; SL = Shoreland

92	C11-19	45.8	SWCDs in Lac qui Parle WD	Yellow Medicine	SWCD CWF 2011 Project for the Lac qui Parle Watershed	This project will install BMPs within six impaired reaches of Lac qui Parle River by: replacing open tile intakes with alternative intakes; installing buffers on tile intakes and on ditches/streams; and implementing other structural BMPs.	$129,316 (CWA)	$ -
93	C11-74	44.2	Heron Lake WD	Multi-County	Heron Lake Watershed District Okabena Creek J-hook Weir Installation	Through this project the Heron Lake Watershed District (HLWD) will work with a landowner in Jackson County to install five J-hook weirs.	$30,785 (CWA)	$ -
94	C11-110	44.2	East Otter Tail SWCD	Otter Tail	Engaging Future Local Leaders Through Shoreland Stabilization and Bioretention Projects	Cultivate future local leaders by providing educational, financial, and technical assistance for shoreland stabilization projects in Otter Tail County, with priority given to projects on lakes with an increasing trophic state index (TSI) and a mean TSI of 51 or greater.	$141,432 (CWA)	$ -
95	C11-120	38.9	Renville County	Renville	2011 Olivia Storm Water Improvements / Beaver Creek Protection Project	The City of Olivia desires to construct two wet sedimentation basins in order to improve water quality and mitigate urban flooding in a 400-acre watershed.	$1,040,000 (SL)	$ -
96	C11-109	35.0	Olmsted SWCD	Olmsted	Byron Regional Stormwater Pond F	This project is for a regional stormwater detention pond near the City of Byron.	$136,842 (CWA)	$ -
