The program goal is to assist these local government partners to be the best they can be in their management of Minnesota's land and water resources.</i></p>	<p>IMAGE</p> 
<p>BWSR's PRAP uses four levels of review to assess performance ranging from statewide oversight in Level I, to a focus on individual LGU performance in Levels II and III, and to remediation in Level IV.</p> <ul style="list-style-type: none"> ▪ Level I is an annual tabulation of required plans and reports for all LGUs. ▪ Level II is a routine, interactive review intended to cover all LGUs at least once every 10 years. A Level II review evaluates progress on plan implementation, operational effectiveness, and partner relationships. This review includes assessing compliance with Level II performance standards. ▪ Level III is an in-depth assessment of an LGU's performance problems and issues. A Level III review is initiated by BWSR or the LGU and usually involves targeted assistance to address specific performance needs. ▪ Level IV is for those LGUs that have significant performance deficiencies, and includes BWSR Board action to assign penalties as authorized by statute. Levels I through III are designed to avoid the need for Level IV. <p>PRAP Contact: Dale Krystosek 218-820-9381 dale.krystosek@state.mn.us</p>
