

Van Wyhe Farms

In Hills, Minnesota, Van Wyhe Farms recently enrolled 12.75 acres in the Minnesota Conservation Reserve Enhancement Program. In Rock County the SWCD is targeting riparian areas in order to improve water quality in high agricultural areas.

Leroy Van Wyhe talked about why they signed up, “Arlyn Gehrke from Rock SWCD brought this opportunity to our attention, knowing we have had past experience with the RIM program on other ground we own. It’s a good opportunity to get a fair payment on ground that would be idle and to do your part for resource protection.”

Contact your local Soil and Water Conservation District to learn more and sign up today.
