

The following projects have met the standards of Minnesota’s Habitat Friendly Solar Program administered by the Minnesota Board of Water and Soil Resources. Projects on this list can be promoted as meeting Minnesota’s Habitat Friendly Solar Standard and declare that they provide benefits to gamebirds, songbirds and pollinators.

To continue meeting the standard, project owners or managers must submit an assessment form for established projects at the end of the third year of vegetation establishment (by December 31st), and after every 3 subsequent years.
