

Grant Program Requirements:**FY2026 and FY2027 Lake Superior Basin Implementation Grant Program Requirements****1. Match**

No match is required.

2. Grant Work Plan

A work plan shall be developed in eLINK and must be approved before execution of the grant agreement. The work plan shall reflect each eligible activity that will be implemented, a description of the anticipated activity outcomes or accomplishments, and grant funding amounts to accomplish each of the activities.

3. Eligible Activities

Funding may be used to build the capacity of the grantee to leverage Great Lakes Restoration Initiative or other federal Great Lakes funding that implement prioritized activities. Eligible activities must be identified in the work plan and include:

- a. Financial assistance for projects;
- b. Technical assistance;
- c. Project support;
- d. Supplies or equipment acquisition; and
- e. Grant management and reporting.

4. Ineligible Activities

- a. Activities that are not consistent with the purpose of Minnesota Constitution, article XI, section 15 to "...protect, enhance, and restore water quality in lakes, rivers, and streams and to protect groundwater from degradation..."; and
- b. Water quality monitoring such as, but not limited to, routine, baseline, diagnostic, or effectiveness monitoring.

5. Native Vegetation

Projects that involve vegetation restoration or establishment must use native vegetation and seed and plant sources consistent with BWSR's Native Vegetation Establishment and Enhancement Guidelines, with the exceptions listed below. Use of plant species on the Minnesota [Noxious Weed List](#) is prohibited for all projects. Non-native species used for projects must not pose a risk to native plant communities. The maximum distance for sources of herbaceous species seed and plants is 200 miles; and for tree and shrubs seed and plants the distance is 300 miles.

Exceptions

- Non-native, non-invasive perennial crops, hay crops or forage crops may be used:
 - As part of a drinking water protection strategy in a vulnerable or highly vulnerable DWSMA as designated by the Department of Health or in a Township Well Testing high-priority area as determined by the Department of Agriculture;
 - In buffers, borders, grass waterways or other areas likely to be exposed to pesticides or part of agricultural production;

- For soil stabilization, erosion prevention and carbon sequestration in an agricultural production setting;
 - On fields that will be hayed, grazed or harvested.
- For the exceptions above, if the project area is under 20 acres in size, the exception may be approved by local conservation staff. If the project area is 20 acres or larger, or for any exceptions not listed here, grantees must request approval from the BWSR Grant Manager.
- Cover crops used to improve soil health and/or water quality are allowed without a maximum acreage limit.
- Temporary cover is allowed without a maximum acreage limit when needed to stabilize project sites prior to the construction of structural conservation practices.
- Cultivars of native species may be used in urban stormwater plantings if they accomplish similar or greater ecological functions, help achieve aesthetic goals and do not pose an invasive or other environmental risk.

6. Allowable and Unallowable Costs

Allowable costs are costs solely incurred through project activities that are directly related to and necessary for producing the project outcomes described in the work plan. Grantee is required to account for the staff time charged to BWSR grants in order to track the expenditure of grant funds and match to ensure the use of the funds is consistent with applicable State and BWSR requirements.

Unallowable costs include but are not limited to:

- Bad debts, monetary settlements and judgements, late payment fees, and investment management fees
- Donations, fundraising, sponsorships, and acknowledgements
- Entertainment, gifts, prizes, and decorations
- Alcohol
- Interest on loans not authorized under state statute
- Loans of BWSR grant funds
- Lobbying, lobbyists, and political contributions
- Merit awards and bonuses

7. Technical Quality Assurance

Practices and projects must meet the following requirements to ensure long-term public benefit:

- **Technical Assistance Provider.** The recipient must designate technical assistance provider(s) that have appropriate credentials for investigation, design, and construction.
- **Practice Standards.** Practices and projects must use appropriate standards for design, construction, effective life, operation, and maintenance.
- **Practice Certification.** Technical assistance provider(s) must certify that the practice or project was installed or constructed in accordance with the applicable plans and specifications, including approved modifications, prior to authorization for payment.

- **Operation and Maintenance.** Technical Assistance Provider(s) must prepare an operation and maintenance (O&M) plan specific to the site and practice(s) implemented.
- **Periodic Practice/Project Inspection.** Inspections shall confirm that the operation and maintenance plan is being followed and the project has not been altered or removed.

8. Project and Practice Assurances

A written agreement is required to ensure program requirements are met when installing projects and practices or providing financial assistance to a landowner or authorized agent. Project and Practice Assurances must include technical and financial obligations and requirements for the installation, operation, and maintenance of the practice or project, including a plan for failures or noncompliance.

9. Permitting

The grantee is responsible for obtaining and complying with all permits necessary to execute the project.

10. Providing Financial Assistance

All BWSR funds used by a recipient to provide financial assistance to a landowner or authorized agent requires adequate project assurances.

Project Application and Agreements

Work completed prior to the signing of the agreement is not eligible.

Conservation Practice Contract Noncompliance

Failure to complete, maintain, or repair a conservation practice or unauthorized alteration is considered non-compliance with an executed conservation practice agreement. If the organization discovers noncompliance, they must take action to resolve and notify BWSR.

11. Grant Management and Reporting

Eligible activities include grant administration, management, and reporting that are directly related to and necessary for implementing the project or activity associated with the grant. Grantee is required to report on the outcomes, activities, and accomplishments.
